

Transferring mathematical technologies: the experience of the Sportello Matematico

Roberto Natalini

Istituto per le Applicazioni del Calcolo del CNR

Via dei Taurini, 19 - 00185 Roma (Italy)

`roberto.natalini@cnr.it`

In this talk we shall present an overview of the activities and some success cases arising from the experience of Sportello Matematico per l'Innovazione e le Imprese, a project which is born in strict connection with SIMAI. During the talk, some thoughts about the state of the collaboration between mathematician and industrial companies will be proposed.
